# Artificial Intelligence & Bots
# Manipulated by Data?
# Boosting Disruptions – How AI and Robotics will enable the full promise of the Industrial Internet of Things
# Becoming a smart Factory: My biggest IoT Challenge
# Digital Twin & Mixed Reality
# Disrupted by Blockchain
# Change Management & the Future of Work

MEET EXPERTS FROM THE FOLLOWING COMPANIES:

An Event organized by VDI-Wissensforum
CESIS – Global Internet of Things conference

CESIS 2018 is the Industrial IoT conference where more than 200 IoT professionals and IT experts from large- and medium-sized companies come together to discuss strategies, innovations and technical solutions. The second edition of the VDI congress focuses on new business strategies and visions including their technical implementation regarding the Internet of Things (IoT) and the Industrial Internet of Things (IIoT). Benefit from strategic presentations based on the expert knowledge of key industry players and hidden champions.

The congress offers a cross-industry platform to Senior Management and Technical Innovation Leaders to share their knowledge on IIoT. If you are in production & manufacturing, logistics, automotive, energy, transport, telecommunication or aerospace – at CESIS you will find solutions for your challenges.

Benefit from:
# High-level networking with other decision makers
# Intense preparation for the Digital Transformation
# Most up-to-date topics in regard to IoT and IIoT
# Interactive Sessions with top-level experts

Confirmed Speakers:

John McLean, VP Global Blockchain Labs Engagement, IBM
“How Blockchain will fundamentally disrupt the way we do business”

Dr. Richard Soley, Chairman and CEO, Object Management Group, & Executive Director, Industrial Internet Consortium
“Managing the Coming Disruption from Industrial IoT: Defining Best Practice and Standards”

Mats Lindell, Director Logistics Solutions, Toyota Material Handling
“Value Creating Networks in Intralogistics”

Solmaz Altin, Chief Digital Officer, Allianz
“Running a Global Digital Transformation Program and becoming a Digital Enterprise”

Veronika Brandt, Head of IoT Business Consulting, Bosch Software Innovations
“IoT Value Networks – Building sustainable partnerships”

Dr. Sebastian Klenk, CEO, 5Analytics
“Moving Machine Learning Into Business Processes - Quick and Easy”

Yuval Dvir, Head of EMEA Online Partnerships, Google for Work, Google
“Inspiration from the Brain on Digital Transformation and Organization Culture”

Joseph DiSalvo, Director Global Research, GE Global Research
“Digital Twins transforming Industrial Manufacturing”

Steffi Michailowa, Project Lead, ABB Trainingcenter
“Enabling People for Digitization”

Massimiliano Melis, Controls Business Process Manager, General Motors
“The DEIS Project- Dependability, Engineering, Innovationfor Cyber Physical Systems (CPS)”
What's in store at CESIS 2018?

Interactive Sessions and Networking

World Cafés
World Cafés facilitate open and intimate discussions on industry specific topics (see website for more information).

IoT Circles
Join one of our circles and get in touch with all of the other participants easily. The circle session will take about 30 minutes of time and deals with interesting IoT topics. You only have a few minutes to discuss urgent questions with your counterpart before you move on and meet the next IoT expert.

Start-Up Area
Meet innovative young companies and learn about novelty solutions.

+ 2 parallel events on „IT Security for smart Manufacturing“ and „Industrial Wearables & Devices“

Exhibition
There will be up to 20 exhibitors and start-ups presenting their latest innovations and solutions. Don’t miss the exhibition and get the latest updates on what services are available to you.
Interested in exhibiting? Get in touch with Venita izevbizada (Email: izevbizada@vdi.de or phone: +49 211 6214 355).

Evening Reception
Network with your peers in a relaxed setting and make contacts that last.

Microsoft Tour

February 19, 2018
Special Pre-Congress Event! Delegates are invited to join a guided tour at Microsoft’s offices including a get-together. More information soon – check back on the website.

Card holder __________________________ □ Visa □ Mastercard □ American Express
Card no. __________________________ Security Code __________________________ Valid until (MM/JJJJ) __________________________
Date __________________________ Your Signature __________________________

Terms and Conditions
Registration: Registration for conference attendance must be made in writing. Confirmation of your registration and the associated invoice will be mailed to you. Please do not pay your conference attendance fee until you have received our invoice and its invoice number to be stated for transfer. German VAT directives apply. Please state your VAT-ID with your registration.

Conference venue:
Holiday Inn Munich – City Center, Hochstrasse 3, 81669 Munich, Germany, Phone +49 89 4803 0 (Main switchboard), Email: postoffice@muchb.holidayinn.com, www.holidayinn.com/munich

Hotel room reservation:
A limited number of rooms has been reserved at the Holiday Inn Munich – City Center, Germany until January 22, 2018. Please refer to “VDI Conference”. For more hotels: www.vdi-wissensforum.de/hrs.

VDI Wissensforum service package: The conference package includes the conference documents (online), beverages during breaks, lunch and the gettogether.

Conference attendance conditions and terms:
By way of your registration you accept the conference attendance conditions and terms of VDI Wissensforum GmbH binding. Any cancellation of your registration must be made in writing. We will charge you only an administrative fee of € 50.00 plus German VAT if you cancel your registration earlier than 14 days ahead of the conference date. Any cancellation that reaches us after this deadline will entail the conference attendance fee as stated in our invoice to be charged in full. The date of the post office stamp of your written cancellation will be the decisive criterion. In that case, we will gladly mail you the conference documents on request. Subject to agreement, you may name a substitute participant. Individual parts and sections of conferences and seminars cannot be booked. You will be informed without delay if an event has to be cancelled for unforeseeable reasons. In that instance, you will be entitled only to a refund of your conference attendance fee if already paid. We reserve the right to exchange speakers and/or change the program sequence in exceptional cases. In any case, the liability of VDI Wissensforum GmbH is restricted exclusively to the conference attendance fee.

Data protection:
VDI Wissensforum GmbH captures and processes the address data of conference participants for their own corporate advertising purposes, enabling renowned companies and institutes to reach out to participants by way of information and offers within their own marketing activities. We have outsourced in part the technical implementation of data processing to external service providers. If you do not want to receive any information and offers in the future, you may contradict the use of your personal data by us or any third parties for advertising purposes. In that case, kindly notify us of your contradiction by using the email wissensforum@vdi.de or any other of the contact options mentioned.

Do you need assistance with your booking or have any further questions we may help you with?
